Window with hidden hinges sash removal

Tools needed:

**Cordless screwdriverr**
⬡ 2.5
2.5 mm hexagon

Screw driver
Light hammer

**Step 1.1** Open the sash for removing opening restrictor.

(P.s. Opening restrictor is not a must thing. It depends on a window furniture list. In somes cases it might not be included.)
1 Release fixator of the holder with the help of screwdriver. Just fit screwdriver into the gap
2 Slide the restrictor to the side
3 Lift up the restrictor from the holder.

4 Turn released restrictor under the sash to avoid breaking
